

Is your Affordable Care Act documentation ready for the 2016 tax filing process?

We made it through the first year of Affordable Care Act (ACA) annual reporting for applicable large employers. Applicable large employers are those with 50 or more full-time (or full-time equivalent) employees. These reporting requirements include **providing and submitting forms that detail whether coverage was offered and utilized by individual employees.**

What does this mean for applicable large employers?

You will need to **provide each of your employees who was full time for one or more months with a 1095-C form**, which includes information about health coverage that you offered throughout 2016. **These forms must be provided to employees on or before January 31, 2017.**

You will also be the resource for employees who have questions about the forms and information. This means that you need to be **familiar with all of the requirements** for employees as well so you can assist.

If you have questions about how iSolved can help with meeting ACA reporting requirements, please contact us at 978-599-1500.
