iSolved TimeForce

Time Collection Options

Gather employee time via hardware, software, telephone and/or smartphone - choose just one or as many different collection methods as you need to accommodate your organization's requirements. Whether you need keypad entry, swipe card readers, door access, proximity readers, biometric (finger scan verification) scanners or labor costing features—there is a clock to get the job done.

Employee Self-service

Employees can input time directly from their desktop using iSolved TimeForce with Self-service. Employees have access to MyScreen where they can view accrual balances and request time off.

Hardware Time Collection

V850 requires TimeForce Job Costing module.

V800 & V850 Rugged Edition

and departmental transfers.

V800 & V850 Biometric TimeClock

We've taken the nuts and bolts of the Velocity 800's and turned them into the hardest working clocks on terra firma. The Rugged Edition clocks are super tough, weather resistant and built to withstand drops up to 3 feet. The clocks are completely mobile, the batteries hold a charge for 12 hours and can be recharged using your vehicle power supply or a standard outlet - making the Rugged Edition clocks perfect for construction sites, industrial settings and outdoor environments.

No cards to carry or lose. Our fast, award-winning clocks in our Velocity Series are biometric and use a one-to-one scan of an employee's finger to clock in and out eliminating buddy punching. The V850 has the additional functionality of job costing

IQ1050 TimeClock (Optional Biometric Reader)

The IQ1050 is one of our most powerful clocks. It can be ordered with biometric, magnetic, barcode, proximity and/or direct keypad readers and it sports a USB flash drive to download time punches if needed.

IQ550 TimeClock

This unit is a sophisticated, feature-rich system with the ability to perform job tracking and costing functions as well as departmental transfers. In addition, the IQ550 offers extended time tracking features such as break and lunch buttons and multiple pay rates.

IQ200 TimeClock

This entry level IQ200 is perfect for small to midsized companies looking to perform primarily time and attendance only monitoring. It includes a USB port that allows for easy data transfer by USB flash drive.

Whichever time collection device(s) you choose, iSolved TimeForce gathers your data, tracks all accruals and exceptions such as tardiness, absenteeism or abuse of break or meal periods. Everything integrates seamlessly. We have the solution for you.
