

iSolved's Report Writer is easy to use. **Really.**

We've built a point, click and drop reporting system that is extremely simple to use.

Intelligence ... simplified. If you have fumbled with report scripting, writing SQL statements or searching for obtuse field labels all in a quest to view your HR and payroll information in the format you want, then this is the game changer you've waited for.

Start with commonly-used, predefined fields and then add in the fields you need – with a simple click. Decide you want to remove a field and it's gone with another click.

And the real magic?

Build formulas without crafting out complex mathematical statements. Simply choose and click. Build a formula in under a minute with confidence!
