Why Expense Management?

For employees to get reimbursed faster and with minimal friction.

For finance teams to maintain accurate records and financial planning.

For management to increase productivity, reduce overhead cost and boost employee satisfaction.

Streamline the expense reporting process with a system that seamlessly integrates with isolved Payroll

This easy-to-use system simplifies the expense report process and shortens work. This also increases employee satisfaction by allowing for a quick turnaround for the employee's funds.

Using the Adaptive Employee Experience (AEE), employees and managers can submit, oversee, and approve single entry expenses whether they are at their desk or on the road. Employees will have access to their expense status, pay history and any documents needed for their personal tax statements. Meanwhile, administrators can get what they need quickly to ensure accurate processing with a single view of automated approval workflows, reporting and more with the configurable system to meet the requirements of each organization's expense policy.

Improve your organization's financial health by identifying opportunities to save costs and avoid potential risks.

Benefiting from a single system of record, administrators can keep control of expenses and tax reporting to enhance employee compliance. They can track expenses by business category, purpose, subcategories, departments and other drill-down reporting – including integration into their finance general ledger all in one place.

isolved customers benefit from the highest security and compliance standards of Microsoft Azure and isolved People Cloud. By eliminating another third-party application and bringing expense management into a company's single HR system, potential weak spots are reduced, eliminating entrances for hackers to access.

Let's talk about how we can improve productivity and eliminate unnecessary workload with isolved Expense Management.
