U.S. laws require employers to only employ individuals who are legally authorized to work in the United States.

The diversity of the American workforce contributes to the strength and vibrancy of the economy, but all employees must work legally within the country.

E-Verify is an internet-based system that allows your company to determine eligibility to work in the U.S. It compares the information from an employee's Form I-9 (Employment Eligibility Verification) to data from Social Security Administration and Department of Homeland Security records to confirm eligibility for employment.

isolved simplifies the employment verification process, with results returned from the agency within seconds. You can also use the solution if you are using paper I-9 forms.

Transforming employee experience for a better today and a better tomorrow.

E-Verify part of the **Attract & Hire** set of tools within isolved Talent Management.
